

Overview

Windows Server 2012 R2 captures Microsoft's experience of delivering global-scale cloud services to provide an enterprise-class server and cloud platform. It lets you optimize performance for your most important workloads and helps to protect against service outages with robust recovery options. It reduces complexity and cost with comprehensive automation plus storage and networking virtualization solutions based on industry-standard hardware. It lets you build, run, and scale applications that can move between your datacenter and the cloud, and allows you to provide your users with flexible remote access from virtually anywhere and any device while helping to protect corporate information.

Windows Server 2012 R2 delivers significant value around seven key capabilities:

1. Server Virtualization - new levels of performance and cross-platform support
2. Storage - high performance and resiliency at a fraction of the cost
3. Networking - hybrid networking with breakthrough levels of flexibility and performance
4. Server Management and automation - increased management efficiency for a diverse datacenter
5. Web and Application Platform - Modern apps build and deployed to scale on-premises and in the cloud
6. Access and Information Protection - Consistent and Flexible user access to corporate resources while protecting data
7. Virtual desktop Infrastructure - great performance, easy to deploy and cost-effective

For over 30 years, HP and Microsoft are combining the intelligence of HP ProLiant Gen8 - the world's most self-sufficient servers, with the ease of management and virtualization capabilities of Microsoft Windows Server 2012 R2. HP delivers Windows Server 2012 R2 Support for ProLiant Servers, see support details at www.hp.com/go/wincert. In addition, HP offers OEM licensing for the following editions:

- Datacenter edition for highly-virtualized private cloud environments.
- Standard edition for non-virtualized or lightly virtualized environments.
- Essentials edition for small businesses with up to 25 users running on servers with up to two processors.
- Foundation edition for small businesses with up to 15 users running on single processor servers.

NOTE: For more information on HP's offering of Windows Server 2012 R2 products, go to: <http://www.hp.com/go/ws2012R2>

Models

Microsoft Hardware Specifications for Foundation edition:

	WS Server 2012 R2	Foundation
CPU		Limited to 1 Proc; per server licensing
Min. CPU Req.		1.4 GHz x64
X64 RAM STD/ Max		2GB/32GB
ECC		Yes
NIC		multiple NICs supported
Internal optical bay drive allowed		Yes
Minimum OS Storage Footprint		32 GB*
SW RAID		Yes
Video		Yes
Keyboard, Mouse		Yes

NOTE: Microsoft Windows Server Foundation edition will limit the number of permissible user accounts and/or require certain Active Directory and domain configurations. If not properly configured, the software will generate warnings to correct the configuration. The warnings will alert you as to the behavior of the software in the absence of corrective measures, which may include the periodic shutdown of the server. The warnings and shutdowns will cease once the configuration is corrected. For more information about these features as they apply to the product, please review the product-specific documentation located on www.microsoft.com.

* For systems with 16GB+ RAM more disk space will be required.

<http://www.hp.com/go/insightcontrol>.

HP Insight Control includes one year of 24 x 7 HP Software Technical Support and Update Service ensuring rapid access to HP support staff and proactive delivery of software updates. For more information about this service, see: <http://www.hp.com/services/insight>.

HP Integrated Lights Out (iLO)

HP iLO Essentials HP iLO Essentials license ideal for small and medium business customers. The specially created HP iLO Essentials (a subset of iLO Advanced functionality) saves SMB customers time and money, by ease of remote server set up through the interactive virtual media, lowering operational costs with remote access via the Integrated Remote Console, and faster time to resolution with email-based proactive notifications. With this newly designed HP iLO Essentials license SMB customers now have the option of a server management package solely design and priced just right for their IT environments. HP iLO Essentials is available on all HP ProLiant Gen8 e-series making this an ideal solution for small business owners. For more information, see: <http://www.hp.com/go/iLO/essentials>

HP iLO Advanced HP Integrated Lights-Out Advanced License a product option, providing smart remote server management without compromise. iLO Advanced unlocks the full set of remote administration functionality for all HP ProLiant servers by activating the full Virtual Keyboard Video and Mouse remote console, multiuser collaboration, console record and replay, GUI-based and scripted virtual media and virtual folders, and enhanced security and power management functionality. For more information, see: <http://www.hp.com/go/iLOADVANCE>

Software Technical Support

HP Foundation Care Services provide reliable and consistent support to keep your business up and running. Within Foundation Care we offer several ways for you to obtain support for your Microsoft solution. If your purchase includes the software licenses for Microsoft products, you receive 90 days' telephone support for as you set up your Microsoft software. You can purchase more extensive support to cover your requirements.

HP Software Technical Support provides remote software support services for Microsoft Server 2012 R2. With HP Software Technical Support, your IT staff receives fast and reliable access to HP Global Support Centers. HP technical resources work with your IT team to provide advice on software features and use, problem diagnosis and resolution, software defect identification, and access to patches.

This service also provides electronic access to comprehensive support information, allowing any member of your IT staff to locate essential product and support information.

Software Technical Support for Windows Server 2012 R2 is available from HP via multiple contact methods, including electronic media and telephone. Software Technical Support includes assistance with:

- **24x7 access to technical resources** - Connect with HP Global Solution Center engineers via telephone, electronic communication, or FAX for assistance in resolving software implementation or operations problems. Service is available around the clock every day, including all holidays.
- **Problem analysis and resolution** - HP Services provides corrective support to resolve identifiable and reproducible software product problems, and to help you identify problems that are difficult to reproduce. You can also receive assistance in trouble-shooting problems and setting configuration

Additional Features

parameters.

- **Software features and operational support** - HP provides information on the latest product features and known problems and solutions, plus operational advice and assistance.
- **Escalation management** - Established escalation procedures enlist specialized expertise from HP to Microsoft Windows .
- **Electronic software information** - Access HP's electronic support facility including symptom-solution database, product descriptions, specifications, technical literature, and more.

Software technical support does NOT include assistance with:

- Generating or diagnosing user generated programs or source codes
- Installation of non-HP products

NOTE: For more information, visit: <http://www.hp.com/services/softwaresupport>.

Microsoft Software Assurance

Boost productivity across your organization with new software versions, deployment planning services, 24x7 phone and web support, end-user training, unique desktop technologies and more, all in one cost-effective program.

With New Product Versions, every Microsoft product license that is covered by Software Assurance can be upgraded to the most recent version.

For example, if a new version of Microsoft Windows Server is made available during the term of your coverage, your licenses will automatically be upgraded to the new version. Customers that acquire perpetual licenses through Software Assurance can deploy the upgrades after their coverage has expired.

NOTE: For more information, please visit:
<http://www.microsoft.com/licensing/programs/sa/default.aspx>

HP Software Licensing and Management Solutions (SLMS)

HP SLMS provides prime source licensing fulfillment and software license management solutions for various Microsoft operating systems and applications volume licenses to large multinational enterprise or domestic companies. HP provides a global sales channel for all Microsoft program and services and will work with you to select the program that best suits your needs. HP offers three comprehensive Microsoft licensing programs: Open, Select and Enterprise License.

Windows Server Catalog Definition

Microsoft's certification program allows HP ProLiant servers a compatibility certification with Windows Server operating systems. HP ProLiant Servers listed in the Windows Server Catalog have been rigorously tested and certified with Windows Server 2012 R2.

NOTE: For information on ProLiant servers certified for Windows server, visit: www.hp.com/go/wincert.
NOTE: For details on Microsoft's server catalog and also a list of HP ProLiant certified servers, visit: www.windowsservercatalog.com.

Additional Features

**Environment-friendly
Products and Approach****End-of-life Management
and Recycling**

Hewlett-Packard offers end-of-life HP product return, trade-in, and recycling programs in many geographic areas. For trade-in information, please go to: <http://www.hp.com/go/green>. To recycle your product, please go to: <http://www.hp.com/go/green> or contact your nearest HP sales office. Products returned to HP will be recycled, recovered or disposed of in a responsible manner.

The EU WEEE directive (2002/95/EC) requires manufacturers to provide treatment information for each product type for use by treatment facilities. This information (product disassembly instructions) is posted on the Hewlett Packard web site at: <http://www.hp.com/go/green>. These instructions may be used by recyclers and other WEEE treatment facilities as well as HP OEM customers who integrate and re-sell HP equipment.
