Price: $59.99   Available at: www.logitech.com

Product Overview
Battery hassles are a thing of the past with the light-powered Logitech® Wireless Solar Keyboard K750 for Mac®. It charges itself with lamplight or sunlight – so you can say good-bye to batteries, power bricks and charging cables. And from the PVC-free construction to the fully recyclable box, this keyboard is designed to help minimize its footprint. Its sleek lines and thin profile add style to your workspace. It also features a layout designed for Mac users, so everything is where you expect it to be – and it all works right out of the box, with no software installation required.

Key Features
<u>Light-powered:</u> The light-powered keyboard works where you do – your house, your office, your hotel room. It charges itself with lamplight or sunlight, indoors or outdoors. And on a full charge it can work for up to three months in total darkness.
<u>Only 1/3-inch thick:</u> With sleek lines and a thin profile, this stylish, streamlined keyboard adds style to your workspace – whether you've got a laptop or desktop.
<u>Familiar Mac layout:</u> All the keys are exactly where you expect them to be, including music and brightness controls, command keys and the eject key. And it all works right out of the box. No software installation required.
<u>Feel-good typing</u>: Combining the best of traditional keyboards, laptops and a Logitech-only concave key-cap design, you'll enjoy faster, quieter, feel-good typing – hour after hour.
<u>Logitech solar app:</u> Want to know how much battery power you have? Or how much power you're getting from your desk lamp? The Logitech Solar App can help.
